NEW   # CONI DUO

CONI DUO is ideal for narrow conference and training desks and tables. CONI DUO provides simple and unimpeded access to power, media and data connections on the table or desk from two sides. There is no reduction in leg room under the desk or table.

When not in use, CONI DUO integrates fully into the surface of the desk or table. When you need power, data or media, simply open one of the two covers, plug into the desired socket and close the cover again. The brush insert prevents the cables from jamming. The harmonious appearance of an "even" table is retained. Configuration of CONI DUO data connections can be freely selected (see custom modules from page 142). Power strips can also be interchanged quickly, and at any time, without the need for tools. Integrated functionality and maximum flexibility not just for today but also for the advances of tomorrow.

The benefits at a glance

· Access from 2 opposite sides
· Just one desk or table cut-out needed
· Integrated into your desktop or tabletop
· Minimum built-in depth, robust frame design
· Integrated brush insert for closing once cables have been plugged in
